

DENEYAP Türkiye is Looking for the Future Technology Stars; Applications for 2026 Are Ongoing!

As part of the **DENEYAP Makers Lab**, carried out in partnership with the **Republic of Türkiye Ministry of Industry and Technology**, the **Ministry of Youth and Sports, TÜBİTAK**, and the **Turkish Technology Team Foundation (T3 Foundation)** within the vision of Türkiye's *National Technology Initiative*, applications for the **2026 Student Selection Process** are open until **March 30**. The program invites young people who are passionate about technology and eager to turn their dreams into real innovations.

Dream, Develop, Build the Future at DENEYAP

Through the **Future Technology Stars Program**, implemented in 132 DENEYAP Makers Labs across 81 cities in Türkiye, students have the opportunity to transform their ideas into tangible projects through 36 months of completely free technology education.

The program, which has expanded beyond Türkiye and is also implemented in four other countries, aims to develop students' analytical thinking, problem-solving, and teamwork skills, while empowering young minds to become strong actors in a future shaped by technology development.

A Generation Growing with Technology and Strengthening Through Innovation

In the 2025–2026 academic year, students in 4th and 5th grades, 8th and 9th grades, and high school preparatory classes can join this journey by applying for the DENEYAP Student Selection Exam.

The three-stage selection process is designed to reveal students' determination, curiosity, and desire to innovate. After the first stage, the E-Exam, successful students move on to the second stage, where they complete online training and assigned tasks. In the final stage, the Practical Exam, students have the opportunity to bring their ideas to life.

Students who successfully complete all stages earn the right to begin a long-term and inspiring educational journey at the DENEYAP Makers Lab.

Applications for the 2026 Student Selection Process are accepted online, and students who want to take part in this exciting journey can apply **until March 30**.

To become a part of **DENEYAP**, connect your dreams with technology, and learn more about the process, **you can visit www.deneyap.org** or follow DENEYAP Türkiye's social media accounts.

A Strong Contribution from DENEYAP to Türkiye's Future

Since its establishment, **DENEYAP Makers Lab** have gone beyond being simply an educational program and have built a powerful ecosystem contributing to Türkiye's future.

So far, the program has received **591,977 applications**, welcomed **44,615 students**, and celebrated **10,802 graduates**, touching the lives of thousands of young people. In addition, **14,151 instructors** have taken part in supporting and inspiring this transformation.

In 2024, the program received **156,000 applications**, demonstrating the rapidly growing enthusiasm among young people in Türkiye to create and develop technology. Guided by the vision of "A Türkiye that Develops Technology," DENEYAP Makers Lab continue their mission of educating the scientists, engineers, and entrepreneurs of the future.
